# DAIL COMMUNITY

---

A NEW DREAM OF TANZANIA

## The 30th Anniversary of the Founding of Dail Community: Bearing Fruits of Adversity

As we celebrate the 30th anniversary of the founding of Dail Community in the year 2018, I plan on thinking about all the beautiful faces of those who have been graciously providing us with their support and calling their names. I hope that the year 2018 will be filled with laughter for all the members of Dail Community, who cried together during the times of hardship and adversity, and the sponsors, donors, and volunteers, who have served the people in need with love.

While contributing to the column, The Fruits of Adversity, in Kukmin Ilbo from the end of last year until early this year, I had a chance to look back on the past three decades. The memories of various trials and tribulations flashed across my mind: the times when we had nothing else to eat besides instant noodles, the 588 homeless people who had to live alongside rats, and the time when I was beaten to a pulp by a mob, who tried to pressure us into stopping our sharing service in Cheongnyangni

What began as an offer of rice and soup to an elderly man, who had collapsed at a public square near Cheongnyangni Station, on November 11, 1988 grew enormously, and we got to share a meal with 1,000 people on May 2, 2017, a day of celebrating the miracle of feeding the multitude (a.k.a. "miracle of the five loaves and two fish"). Dail Community, which has its roots in Cheongnyangni, also has borne remarkable fruits of adversity, with 18 branches established in 10 countries.

In the year 2018, marking our 30th anniversary, we will be erecting Dail Vision Center in Tanzania for the children of Africa who cannot escape the vicious cycle of destitution. This "miracle of love" has been made possible by our amazing ambassador, Sangwon Park, who has provided us with full support in the fundraising activities. We will also establish an orphanage in Sindhupalchok in Nepal, one of the world's poorest countries that is still suffering from the effects of the massive earthquake that occurred a few years ago. The orphanage, which will be set up on the waterside of a large river called Indravati will be named Gisu Dail Orphanage, after Gisu Jang, a board member of Daily Dail, who dedicated himself to this project, along with many others. The orphanage will be located beside a large river called Indravati, and it will be named Gisu Dail Orphanage after Gisu Jang, a board member of Daily Dail who is dedicated to this project. I am truly grateful to all the heroes behind the Fruits of Adversity, testifying the love of Jesus Christ, who have been the salt and light for the poverty-stricken regions in Africa and Asia.

We were able to bear brilliant fruits of adversity thanks to all of you who have supported the missions of Dail Community and have been active co-workers in our mission to share love for the past three decades. I wish for you and your family to bear similar fruits in your home and workplaces.

Sincerely,  
Your Little Brother

허민도

## Cover Story

### NAKU PENDA

I was overjoyed to meet this child at Tanzania Dail Community. He presented me with a photograph that was taken when I was serving meals at Tanzania Babfor. I cannot forget how deeply moved I was when I saw the message, "I love you," which he had written to express his gratitude. Everyone at Tanzania Dail Community is earnestly praying for the establishment of the Vision Center to help the kids just like him foster their dreams.

**A New Dream of Tanzania**

Tanzania, with gross national income per capita of USD 1,000, is designated as one of the world's poorest countries by the United Nations. Here, Dail Community took its first step in 2012, and began the Babfor program for hungry children.

After obtaining the INGO approval from the government of Tanzania in August 2012, Dail Community kicked off its Babfor mission in January 2013 at two container buildings and a tent set up on a vacant lot in the Kunduchi quarry site. The Babfor program was carried out under the blazing sun at times and in the pouring rain at others for a year. Then, finally, the Babfor Center was opened in January 2014, thanks to the donations collected through the Hansemchigo Sharing Movement. Ever since then, it has been possible to proceed with the Babfor mission in a more sanitary and systematic manner.

In Tanzania, public education may be free, but other costs such as the school uniform and supplies are fairly high. This is why many children either cannot enroll in school at all or are forced to drop out midway. We needed a program to help children living in the Kunduchi quarry site enroll in or transfer to schools, and for this purpose, the Dail Hope Class was launched in August 2014. The Tanzania Dail Hope Class began at the Babfor Center, and the twelve children who signed up in the first session got to enroll in regular schools in January 2015. There are now a total of 40 students in the Dail Hope Class in its fifth session, which began on February 1, 2018.

We now need to take a step further beyond the Hope Class and provide a space for children to foster

their dreams. At present, it is difficult to meet the needs of the children, solely based on the educational facilities presently available in Kunduchi. The Babfor Center, where the Hope Class is taking place, does not contain separated spaces, so it is difficult to provide tailored classes to children at different stages of learning. Also, after school, the children have to study on the ground outside their homes because their mud houses are too small and dark, as they are not supplied with electricity. In Kunduchi, there aren't even places where children can read.

These children cannot study as much as they'd like due to limited space, and we are dreaming of building Dail Hope School, where they can receive quality education. The school will be designed with sufficient classrooms and a library where children can study to their hearts' content, and it will provide a space for after-school programs. Also, there are plans to run vocational training programs for youth who have graduated from the regular education program and a sewing class for unemployed women, and to eradicate illiteracy among the elderly in hopes of making small but meaningful changes in Kunduchi.

However, it is quite costly to establish a school. There are a number of people who are offering a helping hand, out of love for Tanzanian children, but we are in need of more donations.

Please take part in our efforts to build the Tanzania Dail Vision Center so that the local children may dream big. We also ask that you have us in your prayers.

1 Sangchul Do, CEO of NS Home Shopping

Interview with NS Home Shopping

## Helping Our Neighbors with Our Agricultural Products

Could you provide us with a bit of information about NS Home Shopping?

NS Home Shopping was established in 2001 as the world's first and only home shopping network specializing in food products, with the aim of promoting the agricultural and livestock industry of Korea. When agricultural and livestock products are processed into food products for sale, small- and medium-sized enterprises (SMEs) can grow and sales channels can be secured for farmers as a result. The shelf life of agricultural and livestock products in their natural state is short, but when they are manufactured into processed food products, their shelf life can be extended, which makes it possible to supply food in a

stable manner. In addition to fulfilling this objective of our establishment, NS Home Shopping is also working to boost the satisfaction of our customers, who are consumers and our suppliers, with "customer trust" as our most prioritized value, and to achieve mutual growth with SMEs through bilateral cooperation.

NS Home Shopping has donated a whopping 15 tons of rice to Babfor. I heard that the rice you've donated holds a special meaning. Could you please explain?

NS Home Shopping conducts "The Miracle of 1 kg of Rice," which is a rice consumption promotion event, every year on Farmers' Day, which falls on November 11. For the Miracle of 1 kg of Rice, 1 kg of rice for every

order placed via NS Home Shopping is donated to help people in need.

15 tons of rice, or half the amount that was collected this way, has been delivered to Dail Babfor. This is a meaningful event that serves to promote rice consumption to help farmers and to share a sense of warmth with our neighbors in need. It has been hosted for the second year in a row.

### What is the differentiated strength of NS Home Shopping?

The pride of NS Home Shopping is the “customer trust” we’ve gained with our “quality control power.” At NS Home Shopping, we’d been dedicated to developing food products long before consumers began to think of foods as products. In response to the higher standards expected of organic and well-being food products by consumers, we have been making an effort to build our quality control power to achieve customer satisfaction. Most of our suppliers are SMEs, so we’ve been making investments to help SMEs improve their quality control, the investment into which may be inadequate compared to conglomerates. NS Home Shopping is the sole company in the industry to be equipped with a food safety research center, which has allowed us to achieve excellence in quality control. With an outstanding and thorough quality control process executed through field visits, we have the highest re-purchase rate and the lowest return rate in the industry, and we’ve ranked No. 1 in terms of customer satisfaction rate.

Tell us about the mission of NS Home Shopping, which

is known for engaging in many donation and charity activities.

NS Home Shopping is a company that has achieved growth, while fulfilling its corporate social responsibility (CSR), under the mission of “creating value for life and sharing happiness.” While focusing on CSR activities that draw participation from our executives and employees, we have been conducting volunteer programs, in addition to making donations, for our staff to gain rewarding experiences and feel a sense of pride through volunteering. This is because we believe that these experiences are the driving forces behind continuous donations and volunteer work. There may be executives and employees participating in a volunteer program for the first time, but there aren’t any executives or employees who participate just once. This is why NS Home Shopping has been able to continually carry out volunteer work and provide help to those in need. You must see with your own eyes, listen with your own ears, and take action yourself in order for you to want to do it again. This is true for volunteer work as well as donating. Once you’ve felt how it feels to donate and volunteer, then you’ll want to do it again and again.

Please tell us about the future goals and plans of NS Home Shopping.

The aim of NS Home Shopping is to grow as a trusted company, with “customer trust” as its utmost value.

1 Gracebell with Gracebell Friends

## Interview with Gracebell

# Practicing Sharing with Warmth and Emotional Sensibility

**Could you provide us with a bit of information about Gracebell?**

Gracebell is a Christian stationery manufacturer that helps people communicate through Bible verses. It is divided in multiple brands: "Hello Jane," which tells stories of an adorable girl who walks with Jesus, "Hello Deundeun," which is centered on Jesus who is with us 24/7, "Flower," which captures the essence of love, praise and gratitude with beautiful and fragrant flowers, and "Gracebell Packaging," with which people can express their love and gratitude with Bible verses.

**What made you decide to create Christian stationery?**

Before the birth of Gracebell, we had been a design

company that created advertisement designs for large corporations based in Korea (incl. Dongwon F&B, CJ and KTF). When we were enjoying our heyday, we made it our mission to solely dedicate ourselves to glorifying God, as His children. We believed that our given environment had been prepared by God and we prided ourselves on making great designs with excellent competency. Ten years ago, we noticed that Christian designs were lagging behind the mainstream trends, and we thought that we should give our designs to God. That's when we started taking an interest in the designs that would be appreciated by Christian youth. Convinced that we could play the role of a channel of faith by offering designs that Christian

youth would like, we started making Christian stationery that would bring joy to God.

**From our understanding, you've faced numerous difficulties while marketing your products. Could you please explain?**

Because our products are Christian-themed, we faced difficulties in getting large bookstores and stationery stores to sell them. Some of the stores proposed that we'd be able to sell them if we removed the Bible passages from the designs. However, without the Bible verses, they wouldn't be the kind of products we intended to sell, so instead of accepting their proposal, we prayed and waited patiently. Finally, thanks to the grace of God, our products are now available at large bookstores and stationery stores.

**What made you decide to donate the proceeds of the sales of your calendars?**

We began to take an interest in the missions of Dail Community while making our 2018 calendar in collaboration with your organization. We thought about how we could be of help, and we thought we'd be able to pass on the thoughts of Christian youth if we donated some of the proceeds from the sales of our Hello Jane calendar, which is mostly purchased by Christian youth. So we decided to donate a portion of the proceeds as a way of working with Dail Community for a good cause.

**You came to volunteer in the Babfor program and personally delivered the donation. We heard that there is a special story behind it. Could you share it with us?**

Gracebell has a group of supporters called the Gracebell Friends. Gracebell Friends are a group of people who like Gracebell, and they meet once a month to talk about Gracebell and share prayers.

The entire staff of Gracebell and the members of Gracebell Friends have been typically meeting at the end of the year for a party. But in 2017, we wanted to make it more special and meaningful, and we thought it'd be a great idea to volunteer together in the Babfor program.

**Tell us how you felt after volunteering in the Babfor program.**

We felt that Babfor was a very warm and generous program. It's not easy preparing meals for so many

people every single day, but the volunteers seemed devoted to their assigned tasks and other workers participated with such joy. It seemed like they were the source of power behind Dail Community's Babfor program.

**What are the future goals and plans of Gracebell?**

With our products, we wish to serve as a channel for sharing the gospel so that non-believers and those who have distanced themselves from God can return to Him.

We are also exporting our products, which contain the Word of God, just like the ones sold in Korea. We plan to make more efforts so that the Word of God can be disseminated to all corners of the world, even to the places where the gospel cannot be reached, through our products.

**Lastly, please say a few words to Dail Welfare Foundation and Babfor.**

It brought us joy to share such immense love together with Dail Community at the end of the year through the 2018 Hello Jane Calendar Project and the Babfor volunteer program. We will pray for and work together with you. "until no one suffers from hunger on earth", anymore.

**Interviewee:** Director Gyeongun Kim

2 Staffs of Gracebell and Gracebell Friends serving food

Jongwook Song, President of Kwangju Bank

## The Love Sharing Relay of Kwangju Bank

**Could you provide us with a bit of information about Kwangju Bank?**

Kwangju Bank, celebrating the 50th anniversary of its establishment in 2018, is a representative bank of the Gwangju and Jeollanam-do region that is working to become a century-old bank. We are a customer-oriented bank that connects with its customers, and we are also trying to create a happy workplace where our employees can work with a sense of hope, pride and excitement.

**It probably wasn't an easy decision to come all the way to Seoul in this freezing weather. Any particular reason for volunteering at Babfor?**

As part of our plans to carry out diverse volunteer services in time for our 50th anniversary, we've been volunteering in meal services in Gwangju, Jeollanam-do Province, and the Seoul National Capital Area in the form of a relay since the end of last year.

**Has Kwangju Bank always been interested in volunteer and charity work?**

Kwangju Bank has been carrying out multi-faceted social contribution activities in the areas of local development, social welfare, environmental conservation, talent training, sports and the arts, as a reliable partner of the local communities. Through our volunteer activities in the Seoul National Capital Area, we hope to engage in social contribution and volunteer activities that target even more diverse socioeconomic classes.

**Which is harder: banking service or Babfor volunteer service?**

I'd say it is Babfor volunteer service when it comes to work that's more emotionally grueling, rather than physically grueling. Because of the wider income gap and the higher prices of goods in Seoul, it seemed that the hardships faced by those coming to receive the free meals were much greater compared to the people in need living in regions outside Seoul. This made my heart feel very heavy.

**What are the strengths unique to Kwangju Bank?**

With around 1,700 executives and employees in total, Kwangju Bank may be smaller compared to other commercial banks, but we have strong solidarity and become united as one when we are working and volunteering.

**Tell us how you felt after volunteering in the Babfor program.**

When you share—no matter how small it may be—it will grow to be much bigger! And you can bring happiness to others through the act of sharing! And you can save lives and pass on hope! Babfor helps fill in the gap that the state has missed!

**Any words you'd like to share with those who haven't been able to volunteer in the Babfor program?**

You can participate if you have two arms and two legs. Your heart will become warm automatically after your work is done.

**Lastly, please say a few words to Dail Welfare Foundation and Babfor.**

If I hadn't volunteered in your program, I would've said, "Keep up the hard work." But now that I've volunteered, I want to say, "What you are doing is valuable work. I respect and admire you."

**Interviewee:** Deputy General Manager Changhee Lee, Social Contribution Office of Kwangju Bank

# CHINA

Heejun Lee Director of China Dail Community

## The Affectionate Heart Society of China Dail Community

With the winter school break and spring season fast approaching, the Affectionate Heart Society of China Dail Community is becoming a lot livelier.

Joseon Wang returned to the Affectionate Heart Society when his school closed for the winter break. There had been only Zhang Yo and Haitao Wang using Room #601, while Room #602 had been used as an office. So it had been quite empty at the Affectionate Heart Society. But now that Joseon has returned and Jihyang Jeon is soon to return from Shenyang, it is expected that things will get a lot more dynamic around here. Seongchun Kim had a great week-long visit here before the spring season. Although things may not be the same as they were when we were Dail Children's House, I am very grateful that there is a place for our children to return anytime and rest awhile and that there are family members who welcome them with open arms.

Joseon Wang

## Support Hunchun Child Welfare Center and Increased 1:1 Child Sponsorships

For the fourteen children from Dail Children's House who are currently at the Hunchun Child Welfare Center, we are faithfully arranging 1:1 child sponsorships to provide emotional support. During our recent participation in a rice-sharing event at senior citizens' centers in Hunchun, we noticed that there were children who could not receive government assistance because they had parents, even though their parents had disabilities. We hope to extend the scope of our

1:1 child sponsorship program to include children in need in Hunchun. We are conducting surveys and making other necessary preparations to help children including those who are raised by their grandparents in rural areas.

Yifan Yo

## Yifan Yo Preparing to Study in Korea

Yifan Yo became a member of China Dail Community at the age of 7 when his mother died. He is now in his third year at a vocational high school in Hunchun, with just one school term left to go. He is Han Chinese, but he is fluent in Korean. Right now, he is getting ready to enroll in a college, with which Korea Dail Community has a sisterhood relationship. He has registered for the Test of Proficiency in Korean (TOPIK) scheduled for this April, and he's currently studying for the test. The procedure for the Han Chinese entering Korea is much more complicated than it is for Korean-Chinese. Yifan doesn't have a home in his name, or any large sums of money, or a parent or guardian who can be his financial guarantor, so he is bound to face some challenges. But we are helping him prepare for attending the college in Korea and walking a brand new path.

# CAMBODIA

Hyeonggil Kim Director of Cambodia Dail Community

## Ukkun Ppreya Yesu! Sending Love to the World on Christmas!

1 Christmas performance

"Preah throng lo na (Good God)"

"Preah throng lo na (Good God)"

"Preah throng lo na throng lo na dol kngom  
(Good God, my good God)"

Shalom! Greetings from Cambodia Dail Community in the name of love and peace!

On December 24, 2017, the lovely children from Phnom Krom, Thrukbbuak and Omanuak gathered at the Phnom Krom Center of Cambodia Dail Community for a Christmas worship service held to celebrate the birth of Jesus Christ.

It is difficult for the children living in Thrukbbuak and Omanuak, which are a 30-min and 1-hr drive from the Phnom Krom Center, to visit us, unless it is a special occasion. So we were happy to see them and we held their tiny hands with a sense of joy.

The children sang praises and danced to celebrate the birth of Jesus Christ and demonstrated their hidden talents. During the performance of each group, all of the children in attendance cheered and clapped as loud as they could. The staff of Cambodia Dail Community also presented a surprise performance, and the children couldn't help but smile and giggle at the sight of their "Nekru (female teachers)" and "Rokru (male teachers)" dancing in costumes.

In addition to the celebratory performances, the children were reminded of the meaning of Christmas, a blessed and joyful day when Jesus arrived in this world. The children then made a promise to provide one another with warm and beautiful love, while remembering the love of Jesus Christ who came to

this world in the humble body of a human being to save us. Grateful for the love of God, they shouted, "Merry Christmas," and applauded to express their gratitude toward God.

At the end of the scheduled program, snacks and bread were provided to children, and we wrapped up the Christmas worship service, with hopes that they will stay healthy until they join us again for another worship service.

Our Christmas may not have been a white Christmas like in Korea, but it was a warm Christmas where love arose from the beautiful hearts of our children, filled with the love of God.

We ask that you pray for these children to learn more about God's love and to lead their lives amid His love by practicing sharing. I would like to note that we are currently creating a space for educational classes and worship services in the front yard of our Kkumfor Center. Please pray for us so that the construction work can be finished successfully, and give us your helping hand so that the Kkumfor space on the second floor can be completed as we've planned.

Ukkun Ppreya Yesu!

### Departure and Appointment Ceremony for Director of Cambodia Dail Community

Remembering the love, tears and toils  
Anticipating the new fruits of love...

The Departure and Appointment Ceremony for the Director of Cambodia Dail Community was held on February 14, 2018, in the presence of the officials of the Siem Reap Provincial Government, local residents and students, and members of NGOs serving in the local community. Words of blessing were given by Chairman Ildo Choi and an appreciation speech was delivered by the former director, Hyonggil Kim, while Mija Seok took an oath as the newly appointed director. The new vision of Cambodia Dail Community was also reaffirmed at the event. In addition, appreciation plaques were handed out to the local sponsors who had provided a helping hand to Cambodia Dail Community. The newly appointed director, Mija Seok, who had been involved in the mission work in Siem Reap for 12 years, said, "I'd like to thank the departing director for his love and service for the children of Cambodia," and expressed her resolve to "serve Cambodia Dail Community, with all [her] heart, based

on [her] past experiences." I ask that you offer an applause to Hyonggil Kim, who served Cambodia Dail Community with love, tears and hard work.

Also, please applaud Mija Seok as a way to encourage her, as she moves forward with a powerfully beating heart to bear the fruits of love.

"Ukun Ppreya Yesus"

We hope that you pray for fruits of miracles to be borne by the new director and the family of Cambodia Dail Community.

3

# VIETNAM

Yeri Lee Director of Vietnam Dail Community

## CHÚC MỪNG NĂM MỚI (Happy New Year!)

I'd like to wish all our sponsors worldwide and everyone who loves and prays for Vietnam Dail Community a Happy Lunar New Year.

We look forward to traditional holidays because of the joy of making and sharing food with our entire family and showing one another love and affection.

At Vietnam Dail Community, we organized a party with Vegas for the members of Babfor, who either don't have a family or couldn't be with their family to celebrate the Lunar New Year. At the party, they were able to celebrate alongside their neighbors.

Vegas is a company that has been practicing sharing with us since 2012. What they are doing is quite meaningful as their employees voluntarily donate money for the Babfor program.

The company had been practicing sharing by not only donating money but also volunteering at Babfor

every first Thursday of the month from 2012 and 2016. Unfortunately, however, they were unable to participate in the Babfor program in 2017. This was because the meal service time was changed from the afternoon to the morning to better accommodate the service recipients following the relocation of the Babfor site. They still kept us in their hearts though.

Despite the difficult circumstances, they've promised to volunteer in the Babfor program on a monthly basis starting in 2018. This year, they donated rice, snacks and various condiments (incl. salt, soy sauce, sugar and flavor enhancers) to help 110 Babfor service recipients including the disabled, seniors living alone and orphans. After receiving such generous donations, the Babfor family couldn't help but smile with a sense of joy and gratitude.

We'd like to express our sincerest gratitude to the executives and employees of Vegas, who have been serving their neighbors in need with Vietnam Dail Community while thinking of their families back home, for their love and generosity. We are very happy and grateful that the Korean companies in Vietnam are setting a great example by growing together with Vietnam and serving their new neighbors.

We pray that the New Year will be filled with even more joyful events. Please pray that Vietnam Dail Community can fulfill its role as a channel of blessing by looking after the people in need and share the love that has been received.

We wish you good fortune in the year 2018!

# PHILIPPINES

**Myeonghyeon Lee** Director of the Philippines Dail Community

## “Salamat po, Jesus (Thank you, Jesus).”

“Salamat po, Jesus (Thank you, Jesus)~~” Greetings from Cebu! I’m Myeonghyeon Lee, who returned to the mission site of Philippines Dail Community on January 19. I’d like to express my gratitude to the former director, Joohyong Ryu, who returned to Korea to rest after beautifully building Kamansi Dail Community Center, and I wish to bless him in the name of the Lord.

The emerald-colored sea and the bright blue sky of the Philippines are arguably the most beautiful sights in the world. The splendid natural environment presents fantastic scenery that will take your breath away. In this gorgeous country, there is Kamansi Dail Community Center located in Cebu. Are you wondering whether the center is as beautiful as the Philippines?

Of course, it is. It is absolutely beautiful. When we provide the children with freshly baked bread and juice, they flash us a bright smile, and say, “Salamat po, Jesus,” like a bird chirping a beautiful song. Even when we give them used clothes that have been donated, they repeatedly say, “I am happy,” and express their delight, dancing like butterflies. It is the sight of these innocent children and the local residents that makes our center beautiful.

They may be living in poorly constructed provisional buildings on the coast, as they have been pushed out of their neighborhoods by the rich, and the sea of Kamansi may have become severely polluted due to the direct dumping of sewage and wastewater, but the children who visit Dail Community Center are very pure, cheerful and beautiful. Those who say that children are our hope and the most beautiful beings

are absolutely right.

However, to be honest with you, I may smile like the local children, but my heart aches and breaks, more often than not. Even as I give out bread, I wish that we could set up the necessary facility to cook delicious rice and provide a satiating meal to the children. Even as I give out used clothes, I feel a sense of guilt and wish that we could provide them with new clothes that fit them perfectly. It is my earnest wish this Easter to give new t-shirts and eggs, with messages about the resurrection of Jesus Christ.

Above all, I’d like to present them with hope. I want to give them the gift of dreams – dreams that they can, one day, escape from poverty, shout, “I am special,” and live as healthy global citizens if they study hard enough. I also want to foster the dream of restoring the black sea of Kamansi into a blue sea, together with these children.

Dear angels, would you like to provide a helping hand so that we can give this beautiful gift to Kamansi?

# NEPAL

**Bhuban Timsina** Director of Nepal Dail Community

1 Soongsil University Team 2 Kids having a great time with the Soongsil Univ. Team

I'd like to introduce to you a group of young adults who came to Nepal Dail Community from Korea with the passion to serve their neighbors. They are the 34th Soongsil University Impact Team.

In poor countries, women have a low status and their rights are not respected by society. Nepal is no exception. For this reason, we've launched a vocational school for women, starting with a sewing class. The participants of the sewing class get to make school uniforms and bags as well as alternative menstrual pads that are must-have items for girls transitioning into women. For girls living in poverty-stricken areas, the sacred time of menstruation becomes a time of agony and suffering. To relieve them of the financial burden, we make alternative menstrual pads in the sewing class, and with the donations from individuals and organizations, we provide laundry training and hand out pouches containing five alternative menstrual pads each. We are making efforts to promote the sewing class, which helps provide the most basic supplies for women who will one day conceive a new life. We are hoping that the acquisition of technical skills through the sewing class will become a starting point for the creation of jobs for women in Nepal, where job opportunities are not provided to women. With an understanding of the significance of this project, the 34th Soongsil University Impact Team donated USD 500, which was used to provide some

70 girls with alternative menstrual pads. They also provided great joy to the poverty-stricken village on the riverside of Manuharu through diverse programs including Babfor, Hope School and volunteer work at the kindergarten, in addition to the sharing of alternative menstrual pads.

Meanwhile, the foundation work is being carried out to build a home for children, who have lost their parents during the massive earthquake in Sindhupalchok. The columns are being erected with the toils of Kkul Bahaduru Ttamang, the Director of the Nepal Branch. Also, a missionary team from Hongik Church came to labor for the orphans and found joy amidst their toils of transporting steel and wood. I was deeply moved by the missionary team from Hongik Church, who came all the way to this remote area in the mountains to shed sweat in the cold winter and gave strength to the orphans. I thank you from the bottom of my heart.

3 Volunteers from the Lions Club    4 President Zundra Dahal of the Lions Club in Kathmandu Team

I would like to extend my deepest gratitude to the 34th Soongsil University Impact Team (Yaho Team), who instilled grand dreams in our children during their visit to Nepal Dail Community this past winter. Also, President Ttandra Ttahal and the members of the Lions Club in Kathmandu paid a visit to provide

warm meals to the children, and seeing the way the locals helped their neighbors in need filled my heart with an abundant amount of joy and happiness. To the numerous sponsors in Korea, I wish you warmth this winter, and hope that the Lord's peace is always with you.

We invite you to the Vision Trip to Nepal Dail Community.

## Join us on our special trip!

We'll be going to Nepal to meet the members of Dail Community.  
We'll be visiting the children we've only seen in pictures, and we'd like you to come with us.

Chang-jae Byeon Director of Uganda Dail Community

## A Program for 7th Grade Students

The elementary education in Uganda ranges from grade 1 to 7, unlike in Korea, and in order to move on to secondary education, students must pass a national examination called the Primary Leaving Examination (PLE). They then get to enjoy a 3-month break after the exam, without any classes. So while you'd imagine they'd be enjoying their free time, most of the children in the area where Dail Community is located unfortunately get neglected during the post-exam period.

Depending on the circumstances of their families, some of the students have to help out around the house or work to earn money. It is unjust for these children to work during their break, but what's even worse is that some of the kids who are forced to work become juvenile delinquents. A typical problem with female students is pregnancy, while male students become addicted to drugs or commit crimes to obtain the money they need. The reality is that the schools, families and even the local community cannot

organize a special program for these kids. The staff at the primary schools and the parents of these children find this situation regrettable and are contemplating ways to counter this issue in vain. So we decided to do something about it by making small changes.

We've screened movies at our Babfor Center for 7th grade students from Kitiko and Kigo primary schools, where we are conducting meal and education services, and we've taken the students to the zoo for the first time in addition to carrying out sports programs, Bible studies, and religious and career counseling. The 7th grade students also put on Babfor aprons and took their first step toward sharing and serving by providing meals to the younger students at their schools. We hope that these children, who will soon be enrolling in secondary schools, receive sound education and have a sound view of life rooted deeply in their minds and hearts. Please root for them together with us! ^^

Our Children, Our Hope!

① students drawing their self-portraits

2 We LOVE babfor!

## The Women's Mission Society of the Uganda Korean Church Makes Donations and the Commencement of Babfor Service!

Most of the children attending the public primary schools in Uganda are in desperate need of help, as their parents make less than the base income. In order to help match these children with sponsors as much as possible, we surveyed a total of 97 children before the school break.

We met a girl, whose parents had died from AIDS several years ago and who was working at a restaurant to financially support her younger brother, without even getting to graduate from primary school herself; a young mother, whose husband died from AIDS, who was making money to care for her four children by doing laundry for her neighbors and working on farmlands, and who has ended up losing all her nails in the process; a number of girls, who were suffering from sickle-cell disease, an inherited condition caused by malaria that leads to abnormalities in the red blood cells and hinders the delivery of oxygen to cells throughout the body, which in turn causes frequent headaches and gradual deterioration of the kidney function.

In order to help the 97 children suffering from the vicious cycle of poverty, the Women's Mission Society of the Uganda Korean Church used the proceeds from a bazaar to buy sugar, cooking oil and snacks to give to us as Christmas gifts. Their act of love moved the students and their parents and guardians, who expressed their appreciation with radiant smiles. I'd like to express my genuine thanks to Pastor Seonguk Oh and the Women's Mission Society who practiced the Lord's Word to "love thy neighbor" through sharing and service.

Also, the Babfor Center of Uganda Dail Community began its first Babfor program for malnourished children. We went out to town to purchase large pots, kitchen utensils as well as rice, legumes, tomatoes, carrots, bell peppers, onions and other vegetables.

One of the deacons from the Korean Church donated firewood to cook rice, while Defense Attaché Yongbae Kwon and his family served as volunteers for the first Babfor program. We invited four mothers and two girls, who were the heads of their families and needing to work and to obtain financial assistance to work with us in the Babfor kitchen.

Grade 7 students and secondary students, who have been trained through the previous meal service programs, also volunteered for the Babfor program, which made us feel very grateful and proud of them. The meals prepared with heartfelt sincerity were shared with the hungry children. We'd like to express our sincerest gratitude to the volunteers, who gave their all despite the obstacles and hardships during the preparation process, as well as our sponsors, who provided us with their material and emotional support.

Babfor will continue until the day famine is eradicated from the world!

## Orientation and Commencement of the 5th Dail Hope Class

The 5th Dail Hope Class began on February 1, with 40 new children. There was an orientation for the children and their parents prior to the first day of class. The 40 children, who had been unable to attend school as they had to break rocks with their parents, sell vegetables and donuts around the neighborhood, clean and do the dishes for other families, or do housework and look after their younger siblings at home, attended the orientation for the 5th Dail Hope Class with their parents. The eyes of the parents and their children sparkled, while listening to Mr. Eundesh with excitement and curiosity.

And finally, the classes began! They may only be

able to speak in Swahili right now, but they will learn how to read and write in Swahili, add and subtract three-digit numbers, and learn basic English and even taekwondo before they graduate in December.

33 of the 40 children enrolled in the 5th Dail Hope Class do not yet have a sponsor. These children need school uniforms, school supplies, and money for snacks, meals and medical care. In order for these kids to concentrate on their studies, without worrying about anything else, they need to be matched with a sponsor as soon as possible. We ask for your prayer and support for the 33 students of the 5th Dail Hope Class to receive sponsorship very soon.

① The orientation for the 5th Dail Hope Class

**We Are Waiting for an Angel  
for Mussa Ramadani**

Mussa Ramadani, who will be turning 14 this year, lives with his mother and younger sister. His father died, as he was crushed by a pile of rocks at a quarry site, when Mussa was just 8 years old. Mussa, who was in primary school at the time, had to drop out due to the circumstances of his family, but he was able to graduate from primary school last year, with the help of Dail Community.

Then, all of a sudden, he was unable to use his legs – from the knees down – starting last September. So although he had enrolled in secondary school, he has been staying at home due to his condition. He has undergone several medical examinations during three visits to a hospital, with the help of Dail Community, but the exact cause of his condition and the name of the disease has not yet been determined. It has cost around KRW 100,000 for every hospital visit including the medical expenses and the cost of medicine.

The doctors have suggested that Mussa undergo one final examination to determine whether he has the disease that they think he probably has. However, we've been told that it'll cost KRW 1.5 million to pay for the exam and for five doses of the therapeutic drugs.

Mussa, whose loves football and who is aspiring to become a teacher, has found it difficult to accept his present situation, where he is forced to lie down or sit around at home all day.

We earnestly pray for a donation angel, who will pay for the medical expenses and the costs of the therapeutic drugs for Mussa, for a speedy recovery so that he may play football with his friends again and become a teacher one day. Thank you!

## Meeting the Servant Korean Evangelical Church of Atlanta

For even the Son of Man did not come to be served, but to serve, and to give his life as a ransom for many. (Mark 10:45)

We'd like to introduce to you the Servant Korean Evangelical Church of Atlanta, an Angel Church working together with the Dail Community of USA to serve and share with others just as it is preached by the Bible in Mark 10:45. Pastor Seonhong An of the Servant Korean Evangelical Church of Atlanta, founded in 2009, is a friend (Peter) of the Dail Community of USA, who took part in the 7th Spiritual Training in the USA a long time ago. Since last year, his church has been assisting in the mission of the Dail Community of USA as an Angel Church.

1 Pastor Seonhong An  
of Servant Korean Evangelical Church of Atlanta

**Q. Where is the Servant Korean Evangelical Church of Atlanta carrying out its missionary work?**

A. We are carrying out our missionary work mainly

in the Amazon and Paraguay. We've founded a theological school in the Amazon, where 36 students have enrolled. In Paraguay, we've initiated medical care, meal service, church school and South American theological school programs in collaboration with the missionaries from the local churches.

**Q. Why did you decide to name your church as "Seomgineun Gyohoe (lit. a church that serves) (English name: Servant Korean Evangelical Church of Atlanta)"?**

A. I felt that Christian faith today has become too conceptual and ideological, and that churches no longer serve people outside their own churches. Our name, "Seomgineun Gyohoe (lit. a church that serves)," contains the meaning of "to serve," which is a verb, or a word that describes an action. I believe that our utmost priority when it comes to serving is to serve the Word of God and to serve with prayers. Our name means that we should, first of all, serve Atlanta, and secondly, serve all other places in the world. Our goal is to serve and we are determined to extend our reach across the world, as much as God intends to use us. Because Jesus Christ came to the world to serve, I believe that this should be the mission of all churches. For this reason, I named the church, "Seomgineun Gyohoe (lit. a church that serves)."

During the interview with Pastor An, we realized that the direction of the service of the Servant Korean Evangelical Church of Atlanta and the spirit of sharing and service of Dail Community had a lot in common. We hope that the Servant Korean Evangelical Church of Atlanta and the Dail Community of USA become aligned with each other in the year 2018 as well to engage in joint missions of sharing and service.

Hong, Choi Director of Babfor Sharing Movement Headquarters

## A Story Shared by Rimha's mom, Seulgi Lee

The day at Babfor in Cheongnyangni began with a lot of hustle and bustle before the break of dawn, as usual, but what was different from any other day was the arrival of a special box.

The box, stained with what appeared to be teardrops, seemed to exude a sense of warmth from a beautiful baby. When we took a look inside, we found warm rice cakes that had been made to celebrate the first birthday of a child.

A woman visited Babfor, carrying her infant daughter on her back, to give the rice cakes to the elderly people of our community as a way to celebrate the first birthday of her daughter, Rimha, who had been born on December 30, 2016.

We'd like to share with you her story of knocking on Babfor's door with a sense of gratitude for the times she endured with her firstborn, who was seriously ill.

I learned about Babfor through the news that Sean and Hyeyeong Jung had volunteered with Babfor to celebrate their child's birthday. I, too, wanted to celebrate my child's first birthday in a meaningful way (by volunteering with Babfor) if I ever became a mother.

I gave birth to my daughter prematurely, and she had to be laid on a cold operation table as soon as she was born. Following a septic shock, the doctors said she might not survive, even though the surgery was successful. However, she miraculously did survive, and is now growing up healthy, like any other child, after two operations.

I was so grateful to the hospital for having saved my child that I made a small donation for the treatment of other pediatric patients, and I thought that perhaps I might have to postpone my plans to volunteer at Babfor. However, because it had been my long-cherished wish to volunteer there, I mustered up the courage to make a call, and they accepted my offer to make a small donation wholeheartedly. That's how I got to share baekseolgi, the snow white rice cake that I had made for my daughter's first birthday. When I arrived at Babfor, I noticed the slogan, "Start with what you can now," which helped open my eyes. I was also very grateful and happy to be able to celebrate Rimha's birthday with so many people, who gave her their blessings.

Without forgetting the inspiration I received that day, I hope to raise her as a child who knows how to share, no matter how little. Remembering the happiness and gratitude we felt through the act of sharing love, I'll raise Rimha to be a healthy and cheerful child, with love. I'd like to extend my gratitude from the bottom of my heart. Thank you.

Sincerely,  
Rimha's mom, Seulgi Lee

## Miracle of Feeding the Multitude

# Sharing a Meal Can Bring Happiness to Your Neighbor

There was a news article about a day laborer living in a jjokbang (a tiny room in a flophouse) setting a fire in the communal kitchen of the flophouse after having starved for more than ten days and stabbing a resident who tried to put the fire out (Dong-a Ilbo, Feb. 6). He committed this violent act, as he couldn't control his anger arising from the fact that he had to starve for days after being unable to find any day jobs in the wintertime. The victim later said that he empathized with his neighbor, who had injured him. He earnestly tried to understand the man, who had felt such deep fury and despair arising from hunger that he went as far as taking out his anger on an innocent man. Under this news article, a person left a comment saying, "If he had been so hungry, he should've gone

to a free meal service center, instead of committing a crime," and as a reply, one person wrote, "Do you think that you can find a free meal service center just anywhere? They don't operate everywhere or at all hours." A meal not only satiates one's hunger, but it also provides a small hope of survival. Today, at Babfor Sharing Movement Headquarters, around 600 people suffering from hunger visited for a meal. Around 600 people come to us on a daily basis, not only from the Cheongnyangni area, but from afar to ease their hunger in the cold winter. It is your helping hand that is saving their lives. For KRW 10,000 a month, you can help us provide warm meals to 600 neighbors in need. We hope for a beautiful world, where we can all live together in harmony.

# KOREA

Jung Soon Lim Director of Dail Little Heaven

① Babfor Clemente Course

## Cultural College for the Socially Vulnerable Classes

Our proposal for the 2018 Seoul Citizen Participation Budget Implementation Plan was accepted, and we were able to conduct a program called the Cultural College for the Socially Vulnerable Classes.

One day, a Catholic priest by the name of Earl Shorris asked a poor, homeless man, "What do you need?" The homeless man answered, "Cultural refinement," rather than "Food."

This gave Father Shorris the idea to establish the Clemente Course, an inspiring educational program that came to be widely known through the book, "The Art of Freedom: Teaching the Humanities to the Poor."

At our Dail Community, around 7-800 homeless seniors visit on a daily basis to eat at Babfor, and we decided to conduct the Clemente Course to teach them literature including poetry. It started with 20 participants, who gained courage and underwent transformations through this course. One of them even began rehabilitation and started working at a reading facility. Through such achievements, we submitted a proposal for the citizen participation program initiated by Seoul Metropolitan Government and it was selected for financial assistance.

"Dail Cultural College for the Socially Vulnerable Classes" aims to open classes through joint governance by the socially vulnerable, the local residents and the government administration. By providing the participants with energy, courage and

hope through lectures on the humanities, we wish to help them view the world with positivity and gain a wide range of open and lifelong learning opportunities.

In addition to providing one meal a day to the socially vulnerable people who are experiencing economic distress, our goal is to help them take the initiative to escape from poverty and a sense of helplessness by equipping them with the ability to engage in introspection through the lectures on the humanities. They will be taught by lecturers who come from all walks of life, and our staff are making the necessary preparations for the course, which is set to begin in either late March or early April. Through the Cultural College, we wish to communicate with the local community and satisfy desires for cultural refinement through the humanities lectures, which will hopefully help the participants view the world with optimism, gain energy and strength, and get back on their feet.

## A Day-long Pilgrimage Along the Stations of the Cross

Meditations on the Stations of the Cross are a type of prayer training that has been passed down as a long Christian tradition. It refers to a pilgrimage prayer regarding the Passion, Crucifixion, and Resurrection of Jesus Christ. It involves meditating on each scene to communicate with Jesus and to feel and pray about the sufferings and the Resurrection of Jesus. The Stations of the Cross of Dail Community are comprised of the 14 traditional stations, based on the Bible, and were created by writer Changyong Park over the course of a year.

We hope that all the visitors to Seolgoksan Dail Community get to experience the Passion and Resurrection of Jesus in their lives through the Meditations on the Stations of the Cross.

**“Whoever wants to be my disciple must deny themselves and take up their cross and follow me.”  
(Mark 8:34)**

### Understanding “Jinji”

“Jinji” is a formal Korean word for “meal”. Meal time means more than just eating food in Dail Community. We try to seek meaning and God’s love sincerely through this time, and give thanks to the Lord who feeds us with everyday food.

### Spiritual Counseling with Flower Tea

Seolgoksan Dail Community is located on a hill where flowers bloom throughout the year. The members of Seolgoksan Dail Community invest a great deal of time and effort picking the flowers to be washed and dried so that they can be served as flower tea to the visitors. At Seolgoksan Dail Community, you can walk along the Way of the Cross and share your stories from the bottom of your heart, while drinking a hot cup of tea with others.

### Worship Services with Seolgoksan Dail Community and Missions of Dail Community

The members of Seolgoksan Dail Community give prayers and hold worship service three times a day: in the morning, at lunch and in the evening. Anyone on a pilgrimage along the Stations of the Cross can participate in the worship services. If you wish to worship God with the people you’re visiting with, you can do so at Calvary Chapel.

### Consultation, Contact Info and Directions

A Day-long Pilgrimage Along the Stations of the Cross is a program where you engage in Meditations on the Cross, participate in worship services, Understand Jinji, and share flower tea, all in one day. Adjustments can be made depending on your needs and circumstances. Contact Seolgoksan Dail Community anytime, and we will consult with you on the arrangements that can be made.

# I am a Happy Volunteer

## Bapfor Sharing Movement Headquarters

### Kwangju Bank

The President and employees of Kwangju Bank came to Babfor before the break of dawn on a bitter cold day when the temperature dropped to  $-20^{\circ}\text{C}$ . In addition to donating money for the meal services at Babfor, they even gave us rice cakes to be provided as snacks. They handed out food, washed the dishes, and even cleaned up afterwards. While even joking that they wouldn't want to ever come and live in Seoul because it's unbearably cold, they never stopped smiling and served the people with genuine enthusiasm throughout the day. Thank you to the President, branch managers and employees of Kwangju Bank for giving us your valuable time.

### Seungmin Kim from Seoul Global High School

Seungmin Kim, a third year student at Seoul Global High School, has been volunteering since he was in his senior year in middle school. He takes time out of his life to volunteer with us because he is unable to forget the seniors who thanked him on their way out after eating the meals. He always smiles and does whatever he is asked to do, without a complaint. He has also answered our call whenever we needed him due to a lack of volunteers. As a senior student in high school, he is busy studying for the College Scholastic Aptitude Test, yet he still comes to serve the people at Babfor. We hope to see him when he is an adult as well.

### KAIST College of Business

Students from KAIST College of Business paid a visit to Babfor once again this year. They have been lending a helping hand since 2008. They even donated underclothes so that the elders at our center can stay warm this winter. Geonhwa Moon (PMBA, 2016) participated this year after taking a leave from work, and he said, "This was my first time volunteering in a meal service. After hearing the purpose of this program and the stories of the people using this service, I realized how warm a meal can be, and I was touched by the people whom I met with such beautiful hearts. I'll participate again for sure next time." Everyone gave their all and served all the elders until the end. We hope that the students of KAIST College of Business engage in heartwarming sharing and service in 2018 as well.

## Uganda

### Korean Volunteers

Since the commencement of Babfor, Korean volunteers have been shedding sweat every Saturday to practice sharing and service. We'd like to thank Defense Attaché Yongbae Kwon and his wife Sunam Jeong (children: Banseok, Uiin, Jinju and Bobae), Jongho Bae and Yeonsu Lee, missionaries Jeongung Lee and Mija Seok, and Wancheol Ryu for visiting us with bananas and biscuits for the children.

## Nepal

### Wa-Uri Presbyterian Church Youth Volunteer Team

The Wa-Uri Presbyterian Church Youth Volunteer Team, who visited Nepal Dail Community, greatly moved the hearts of our children with their passion and enthusiasm. We'd like to extend our sincerest gratitude to them for serving with such astonishing youthful energy that made us go, "Wa (Wow)!" just like the name of their church. Wa-uri Presbyterian Church is the best!

### Songchon Presbyterian Church Volunteer Team

The Songchon Presbyterian Church Volunteer Team traveled far to visit us in Nepal by taking their valuable time during their winter school break. Thank you for preparing and distributing the food with such youthful energy and enthusiasm. The heartfelt sincerity of the young members of Songchon Presbyterian Church deeply touched the hearts of the children they served. We hope that the memories of the time spent at Nepal Dail Community remain in their hearts for a long time as well.

## Little Heaven

### The How Team, a Volunteer Club at Baewha Women's University

The How Team, a volunteer club at Baewha Women's University, visited Dail Little Heaven once again this year. Despite having to focus on their studies, they always make time to visit Dail Little Heaven. Yeonhee Kim, the President of the How Team, came with a surprise gift this time. We are already more than grateful for their volunteer services, but they purchased fruits, snacks and daily necessities for the residents of Dail Little Heaven. We could tell that they have such kind, beautiful hearts by the way they were looking after the needs of others, rather than their own. We hope you visit us frequently here at Dail Little Heaven in 2018. We can't wait to see you again. The How Team of Baewha Women's University is the best!

### Beauty Care Volunteer Team from Somang Church

The Beauty Care Volunteer Team from Somang Church who served with great enthusiasm in 2017 came to visit us again in 2018. Even though they must have their hands full with work, they still try to find time to visit Dail Little Heaven once a month to cut the residents' hair. That's not all, they also help trim their eyebrows and shave their mustaches and beards, so all of our residents are always eager to see them again. They also share such joy and warmth that after their visit, the residents seem truly happy. We will not forget your kindness shown to the residents of Dail Little Heaven. Dear Beauty Care Volunteer Team from Somang Church, thank you. We love you. Bless you!

### Volunteer Team from Kyung Hee High School

Students from Kyung Hee High School contacted us, expressing their wish to volunteer at Dail Little Heaven. Kyung Hee High School is an autonomous private school, with 56 years of brilliant history and traditions. It is a world-class private school, where bright and multi-talented students can chase their grand dreams. The volunteer team, comprised of male students, went down to our basement to clean it up. They swept and mopped the floor, in an effort to get rid of every speck of dust, and seeing them work so hard was very moving. At the end of the day, the students expressed their wish to volunteer again someday and take part in a different type of work next time, which was also very touching. Welcome to Dail Little Heaven!!! To the volunteers from Kyung Hee High School, keep studying hard!

## Cambodia (Main Branch in Siem Reap)

### Daniel Academy (Siem Reap)

Students of Daniel Academy came to Cambodia Dail Community for a 5-day visit in December last year and lent a helping hand of love. They were elementary and middle school students, who served with bright smiles on their faces, as they shed a great deal of sweat while volunteering in the arts and sports education program, Babfor and Bbangfor. Following their visit, they left us a heartwarming review saying, "We learned that service is not just an action, but an act that must be done with all of one's heart and love." We'd like to express our gratitude to all the members of Daniel Academy. Ukun Ppreya Yesus!

### The Angel's Hand (Siem Reap)

The members of the Angel's Hand visited Cambodia Dail Community for the second year in a row in 2018. They massaged the small feet of the children, made beautiful shoes for them, put on diverse performances, offered experience activities, and handed out snacks. Despite the frenetic schedule of visiting all of the mission sites of Cambodia Dail Community including Phnom Krom, Thrukbbuak, Omanuak and Jjunkunia they still promised to visit us again after stating that they've learned how to love and be grateful through the volunteer services. The Angel's Hand is the best! Ukun Ppreya Yesus!

## Cambodia (Phnom Penh Branch)

### Korea National University of Transportation

Twenty-four students and professors from Korea National University of Transportation visited the Phnom Penh Branch of Cambodia Dail Community at the dawn of the New Year. They joyfully helped us out in the Babfor and Bbangfor services, played with the kids, and performed sanitation work as well. They also presented buchae-chum (handheld fan dance), a traditional Korean performance, which left the children in great awe and admiration. Thank you to the students, faculty and staff of Korea National University of Transportation for their donations and volunteer work.

### 15th Dream and Love Learning Center and Phnom Penh Good School

The members of the 15th Dream and Love Learning Center arrived from Korea on January 13, and the volunteers from Phnom Penh Good School paid a visit to the Phnom Penh Branch of Cambodia Dail Community after a year. The school principal, who always looks at the children with a loving gaze, and the teachers and volunteers, who came to share their love with the children, served from the bottom of their hearts at our center. We'd like to express our sincerest gratitude toward the Dream and Love Learning Center and Phnom Penh Good School for setting a good example of sharing and service.

### Hakhach Methodist Church

The Vision Trip Team from Hakhach Methodist Church visited Cambodia for missionary work for the third year in a row. It was great to see the volunteers interacting with the children openly and wholeheartedly, and they even brought toys and towels to play with the children and promote hygiene and sanitation. We'd like to express our genuine thanks to the members of Hakhach Methodist Church for volunteering with such brightly lit faces. Hakhach Methodist Church is the best~^^

# Sponsorship Guide

## Regular Donations

### Happiness of 10,000 Won (KRW 10,000/month)

The donations are made to support the Babfor Sharing Movement Headquarters, Dail Angel's Hospital, as well as the overseas missions of Dail.

### 1:1 Overseas Child Sponsorship (KRW 30,000/month)

A one-on-one tie is formed between a sponsor and a child to help raise the child and foster his/her dreams.

## One-time Donations

### Dail Angel Sponsorship (KRW 1 million per account)

This is a sponsorship program where you can become a "Dail Angel Member" and support the programs of the domestic and overseas branches of Dail Community.

### Angel Company (KRW 100,000/month)

This is a sponsorship program for enterprises to donate a designated amount on a monthly basis to help people in need and create a warm society.

### Angel Church (KRW 100,000/month)

This is a sponsorship program for churches to donate a designated amount on a monthly basis to help vulnerable and marginalized populations and to further expand the Kingdom of God.

### Dail Lifetime Angel Sponsorship (KRW 10.04 million per account)

This is an eternal sponsorship program where you can become an "Eternal Dail Angel Member" and support the Seolgoksan Dail Community Project and various missions of the domestic and overseas branches of Dail Community.

## DAIL Community Spiritual Retreat Program

You can find a beautiful world through our Spiritual Training Center at the Seolgok Mountain DAIL Community.

Are you experiencing happiness regardless of your environment or circumstance at your own will?

Seolgok-Dail community provides the opportunity to travel through spiritual space to seek a beautiful world on mother earth. For a week you can leave all your worries, sorrows, anxieties, and troubles behind and find answers to the questions, "Who am I?", "Where am I in my life?", "What am I looking for?" and "What is the road to true happiness?" Along with Pastor Il-Do Choi and Yeon-Soo Kim, we have prepared spiritual leaders who can open doors to grace and guide you through the Christian spiritual training that has been passed down through church traditions including a diverse range of prayer training as well as healing of the whole-person including the body and soul.

### Finding a Beautiful World

we focus on the negative emotions that interfere with us and help us to discover the roots of emotions, such as sadness, madness, depression, and grievance, which prevent us from living the original nature of God, love and gratitude. Silent Prayer and Inner Healing. Facing these negative emotions in the ongoing questions, we find that the roots of the emotions are the rigid thought structures we have created and the unconscious systems that make up the structure of our thoughts. The awakening to notice the system comes with the "Aha!" experience, where the eggs are broken as if the eggshell breaks, and the ground is shiny.

**schedule 1** July 9-13(M-F), 2018 in South Korea  
July 30-Aug 3(M-F), 2018 in South Korea
